

# MINING INDUSTRY

**MOJ S.A. – ODDZIAŁ KUŹNIA OSOWIEC (FORGING SHOP)** is one of the oldest industrial plants in Poland. We specialize in production of forgings for the mining industry. We produce i.a. forgings for mining chains – connecting links, locks, flight bars, clamps and working parts of mining shearers – pick holders, flat picks. We cooperate with Polish and foreign companies.

#### OUR OFFER INCLUDES:

- hot forged steel forgings weighing 0,1 - 25 kg,
- production of forgings based on provided documentation or sample product,
- preparing CAD/CAM documentation for forgings taking into account our forging technology,
- production of forging tools,
- heat treatment and machining of forgings,
- shot blasting,
- cold and hot sizing.

#### AT THE REQUEST OF CUSTOMERS WE OFFER:

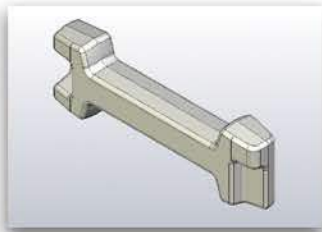

- magnetic inspection of surface defects
- metallographic tests and strength tests.

Our company has been satisfying growing demands of customers for many years. High quality of our products is achieved thanks to the constant improvement of the production process, the search for new technological solutions and our qualified personnel. Cooperation with our company is the guarantee of reliable and timely order performance.

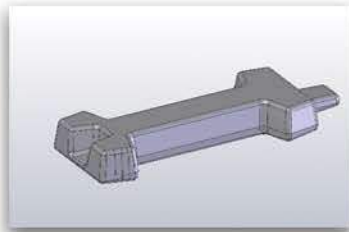

In may 2005 we received TÜV Certificate which guarantees high quality of our products and confirms the implementation of ISO 9001 Quality Management System.
